SUMMARY:

Dynamic developer with strong Python and JavaScript expertise, delivering impactful business solutions. Expert in manufacturing ERP development, mastering full-cycle functional and technical customization. Led seamless stakeholder meetings, successful project deliveries, and efficient AWS deployments. Adapted seamlessly to diverse tech stacks across projects, consistently fixing bugs and delivering new full-stack features regardless of the underlying technologies. . Passionate about leveraging technology to solve real problems and sharing insights through LinkedIn.

SKILLS:

Technical Skills	Python, JavaScript, PostgreSQL, REST APIs, MySQL, HTML, CSS
Frameworks	Frappe ERPNext, Django, Bootstrap, React, Next.js
Others	Troubleshooting, Automation, Cross-Functional Collaboration,
Tools	AWS, Git (Bitbucket), Figma, Canva

EXPERIENCE:

July 2024 - **Present**

Kritilabs Technologies Private Limited , Chennai

Role: Junior Software Developer

- Designed and implemented an autonomous agent workflow using LangGraph with ChromaDB for persistent context retention. Created Toon (Token-Oriented Object Notation) to optimize data synchronization and built a resilient FastAPI backend for facility management operations.
- Developed a centralized intelligence bot capable of communicating with multiple databases and systems to generate comprehensive, executive-ready reports for the CEO and leadership team eliminating reliance on developers for operational insights.
- Developed and customized ERPNext (Frappe) modules (HRMS, Purchase, Manufacturing, Service, Installation) both functional and development and deployed on AWS
- Designed and launched a scalable, SEO-optimized website with serverless architecture, reducing costs and improving performance.
- Upgraded React applications by moving from Class Components to Functional Components and optimizing UIs for CMS (Cargo Management System) & VTS (Vehicle Tracking and Driver Management System)
- Acted as Scrum Master, driving Agile ceremonies and ensuring smooth cross-functional collaboration.
- Resolved critical technical issues independently, ensuring stability and uninterrupted operations.

EDUCATION:

Bachelor of Technology - Computer Science Engineering

CGPA: 7.2955

2020 - 2024 | Sastra Deemed to be University, Kumbakonam, Thanjavur, Tamilnadu.

Senior Secondary (XII)

Percentage: 69.30%.

2019 - 2020 | Town Higher Secondary School, Kumbakonam, Thanjavur, Tamilnadu.

Secondary (X)

Percentage: 81.1%.

2017 - 2018 | Town Higher Secondary School, Kumbakonam, Thanjavur, Tamilnadu.

CERTIFICATIONS:

- Software Engineering By IBM [✉](#)
- BackEnd Developement By Meta [✉](#)
- Machine learning [✉](#)
- FrontEnd Developement By Meta [✉](#)
- Python crash course By Google [✉](#)
